Press Release

GP Batteries Introduces Portable Power Pack GP ReCyko⁺ Mobile Power Offers Power on the Go

XXX, July XX, 2008 – With the huge penetration of different electronic portable devices , such as mobile phones, digital cameras and game devices, into our daily lives, consumers are in great need of power on the go. GP Batteries, the world-leading manufacturer of battery products, today launched the portable **GP ReCyko⁺ Mobile Power**, bringing greater convenience to consumers.

The multi-function GP ReCyko⁺ Mobile Power can be used as a charger for rechargeable batteries or as a convenient power pack for various USB enabled digital devices. The Mobile Power can charge one to two pieces GP ReCyko⁺ AA batteries in five hours. Equipped with auto safety cut-off control by voltage, timer and temperature, GP ReCyko⁺ Mobile Power is extremely safe to use. The fully charged GP ReCyko⁺ AA can be used simultaneously with devices like, cameras, MP3, and remote controls etc. The detachable battery compartment is a portable power pack which can charge various digital devices with fully charged rechargeable batteries via USB power port. The battery compartment is compact and lightweight, with 36 grams only. GP ReCyko⁺ Mobile Power is ideal for traveling and trips. It can be kept in handbags and briefcases without worry of running out power.

An added feature of GP ReCyko⁺ Mobile Power is using it as an AC adaptor to USB power port. By connecting the charger to AC power, users can enjoy the maximum convenience of powering digital devices via USB cable and charging battery at the same time.

“GP Batteries is proud to add another innovative product – the GP ReCyko⁺ Mobile Power to our diversified portfolio. This portable charging device brings convenience to consumers and encourages the use of rechargeable batteries for environmental goodwill, which is in line with our mission,” said Josephine Ng, Marketing Director of GP Batteries.

GP ReCyko⁺ Mobile Power will be sold in bundle with GP ReCyko⁺, the latest innovative environmentally friendly rechargeable battery. GP ReCyko⁺ is sold precharged and ready to use upon purchase. GP ReCyko⁺ can be recharged and reused for up to 1,000 times, thus significantly reducing battery disposal. Its excellent charge retention capability also makes it an ideal power source for a wide range of electronic applications, whether it is high drain or low drain. For consumers’ convenience, GP NiMH (Nickel Metal Hydride) rechargeable batteries

can also be used with GP ReCyko⁺ Mobile Power.

The portable GP ReCyko⁺ Mobile Power is modernly designed with a pure white color, generating genuine attractiveness. GP ReCyko⁺ Mobile Power will be introduced in XXX markets at a suggested retail price of XXX.
